

Baby's Only Organic® Formulas

Certificate of Medical Necessity

Baby's Only Organic® Formulas available in Dairy, Dairy with Whey Protein, Dairy with DHA & ARA, LactoRelief with DHA & ARA and Soy

Date _____

To (Insurance Company) _____

From (Physician's Name) _____ (Hospital or Company) _____

_____ is a _____ (age) patient who has been under my care for _____ years.

She/he has a diagnosis of _____, which has been managed with _____

The patient's current weight is _____ and height is _____. He or She will require _____ calories- kcal/ounces per day.

This may adjust as his or her nutritional needs change. The use of Baby's Only Organic® is a key component to the medical management of the patient's condition. I am requesting insurance coverage and reimbursement for this patient, for whom I am prescribing Baby's Only Organic®.

Organic Dairy Formula with DHA & ARA Offering the ONLY formula with DHA & ARA derived from egg phospholipids. Studies conclude egg phospholipids are more easily absorbed and offer greater bio-availability than DHA currently used in leading formulas.

Organic Dairy with Whey Protein Formula Contains 100% organic lactose as carbohydrate source; added organic whey protein powder. May aid in digestion and produce softer stools.

Organic Dairy Formula Healthcare professionals often recommend dairy formula as it naturally contains protein and carbohydrates most similar to breast milk.

Organic LactoRelief® with DHA & ARA Formula This milk-based formula is intended for babies who are lactose intolerant and offers an alternative to parents who wish to avoid soy protein in their baby's diet.

Organic Soy Formula This soy-based formula is lactose and dairy free and appropriate when parents prefer a vegetarian diet.
